**My Success Map™**

## 1. My Success Map™

My Success Map™ describes the areas and process you need to perform to achieve success. There is a formula to achieve success and My Success Map™ is one formula. First, set your direction. Next, do your strategy. Last, go your journey. We use My Success Map™ when I partner with you and it informs my solutions to you. I designed it based on my 40 years plus experience in life and 25 years plus experience in business and sport. It is based on models, principles, techniques, and strategies from psychology and designed by me. Explore My Success Map™.
